

What makes American Funds different

2023 edition: Class A shares

**CAPITAL
GROUP®**

**AMERICAN
FUNDS®**

Invest for long-term success

Our goal is to earn your trust each and every day

Since 1931, we have taken a long-term approach that's consistent with the long-term goals of our investors.

We know how important it is for you to select an experienced manager who understands the value of your trust. We offer our funds through financial professionals because we believe in the value of professional advice.

This content, developed by Capital Group, home of American Funds, should not be used as a primary basis for investment decisions and is not intended to serve as impartial investment or fiduciary advice.

All Capital Group trademarks mentioned are owned by The Capital Group Companies, Inc., an affiliated company or fund. All other company and product names mentioned are the property of their respective companies.

Investments are not FDIC-insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.

Each of our funds is designed to pursue objectives that help investors meet their real-life needs

For over 90 years, we have managed investments with the goal of helping long-term investors succeed.

Below are a few examples of investors who, while working with their financial professionals, are pursuing their goals by investing in American Funds.

Funding an education

"We want to fully fund our children's education for as long as they wish to go to school, and it's our hope that they all earn at least a master's degree."

– **Viet Ha,**
American Funds investor

Investing for the long term

"Our focus is long-term growth. We like to keep 70% of our money in growth and growth-and-income mutual funds. We had some good success with our decisions to stay in the market and dollar cost average."

– **Gregory Brookins,**
American Funds investor

Living in retirement

"It's comforting to know that there are people who are on our side now, and we don't have to worry about [managing our money] as much."

– **Howard Duzan,**
American Funds investor

We are aligned with long-term investors

Our investment philosophy is based on doing what we believe is right for investors. In our efforts to help protect the value of investments, we pay close attention to risk. We base our decisions on a long-term perspective because we believe it is the best way to achieve superior long-term investment outcomes.

We invest with you

"My investments are in American Funds right alongside yours. Our associates and portfolio managers are also significant investors in our funds, a reflection of our collective interest in helping you succeed."

– **Tim Armour**
Chief Executive Officer
and Portfolio Manager

We reward long-term results

"We measure ourselves over one-, three-, five- and eight-year periods – with increasing weight placed on each succeeding period – to encourage a long-term focus and to further align ourselves with our investors."

– **Caroline Randall**
Portfolio Manager

Seven American Funds among Morningstar's highly selective "Thrilling 31" list

For the eleventh year in a row, investment research firm Morningstar® included several American Funds on its list of standout mutual funds in its universe. Of the 31 funds chosen from a universe of over 8,000 funds, seven were American Funds.

Source: Morningstar, "The Thrilling 31: A List of Great Funds" by Russel Kinnel, October 14, 2022. Morningstar's screening took into consideration expense ratios, manager ownership, returns over manager's tenure, and Morningstar Risk, Analyst and Parent Pillar ratings. The universe was limited to share classes accessible to individual investors with a minimum investment no greater than \$50,000 and did not include funds of funds. Class A shares were evaluated for American Funds. The list's criteria have changed over the years. Visit [morningstar.com](https://www.morningstar.com) for more details. Past results are not predictive of results in future periods.

Put our experience to work for you

Our portfolio managers average 28 years of investment industry experience, including 22 years at our company.

Our portfolio managers' experience spans generations
(portfolio manager years of investment industry experience)

Strength in numbers

19%

of our portfolio managers experienced the October 1987 crash

48%

of our fixed income portfolio managers experienced the difficult 1994 bond market

A closer look: Current investment professionals who covered technology companies

Mark L. Casey

Early in his Capital career, Mark's research responsibilities as an investment analyst included infrastructure software and document imaging. He is an equity portfolio manager.

Years of experience: 22

Office: San Francisco

David A. Daigle

David, a fixed income portfolio manager, covered wireless communications and technology as an investment analyst early in his career.

Years of experience: 28

Office: New York

Sung Lee

An equity portfolio manager, Sung was an investment analyst who covered consumer an industrial electronics, telecom equipment and Asian electronic components companies.

Years of experience: 28

Office: Singapore

Unless otherwise indicated, the years of investment industry experience are as of December 31, 2022.

The Capital System™ combines independence and teamwork

We begin by defining a clear investment objective and assembling a team best equipped to pursue the opportunities.

The Capital System’s multiple manager approach

Example:
New Perspective Fund®

A diverse group of portfolio managers and analysts brings complementary investment approaches, experience levels, backgrounds and areas of focus.

Analysts
In most funds, including New Perspective Fund, a group of investment analysts manages a portion of the fund known as the research portfolio.

Portfolio managers

Each portfolio manager is assigned a portion of the overall assets to manage independently, enabling them to focus on their highest conviction ideas.

Barbara Burtin
Experience: 14 years
Office: Los Angeles

Noriko Chen
Experience: 32 years
Office: San Francisco

Patrice Collette
Experience: 28 years
Office: Luxembourg

Brady Enright
Experience: 31 years
Office: San Francisco

Jody Jonsson
Experience: 34 years
Office: Los Angeles

Jonathan Knowles
Experience: 31 years
Office: Singapore

Rob Lovelace
Experience: 37 years
Office: Los Angeles

Andraz Razen
Experience: 25 years
Office: London

Steve Watson
Experience: 35 years
Office: Hong Kong

The portfolio managers and experience shown are as of the most recent prospectus dated December 1, 2022. Portfolio segments do not reflect actual allocations and vary by fund.

The Capital System means not investing in anyone's 200th best idea

Which would you prefer: A portfolio that represents the 25 to 40 best ideas of several people or one person's 200 best ideas?

"The Capital System is designed to try to get the benefits of two worlds. One is to capture the individual responsibility and individual motivation that are essential to investing. The other is the benefit of multiple points of view, which serves to sharpen the investment ideas."

– Rob Lovelace
Portfolio Manager

How The Capital System approach can benefit you

Broad diversification

Each portfolio manager invests in their highest conviction ideas, so fund portfolios tend to contain a diverse group of securities.

Rigorous risk management

The diverse combination of portfolio managers and investment analysts in each fund is designed to lower volatility while striving for superior long-term outcomes.

Consistency with fund objectives

Each fund's principal investment officer, along with a coordinating group, reviews investments for consistency with fund objectives and overall guidelines.

Global research is the backbone of our organization

We have invested internationally for more than half a century. We are among the largest U.S. investors in international stocks and bonds.*

Barbara Burtin

Having worked in business development for Capital One in the U.S., France and Italy before joining Capital Group, Barbara brings a variety of international experience to her role as a research analyst for European and Latin American banks, including entrepreneurship and management consulting.

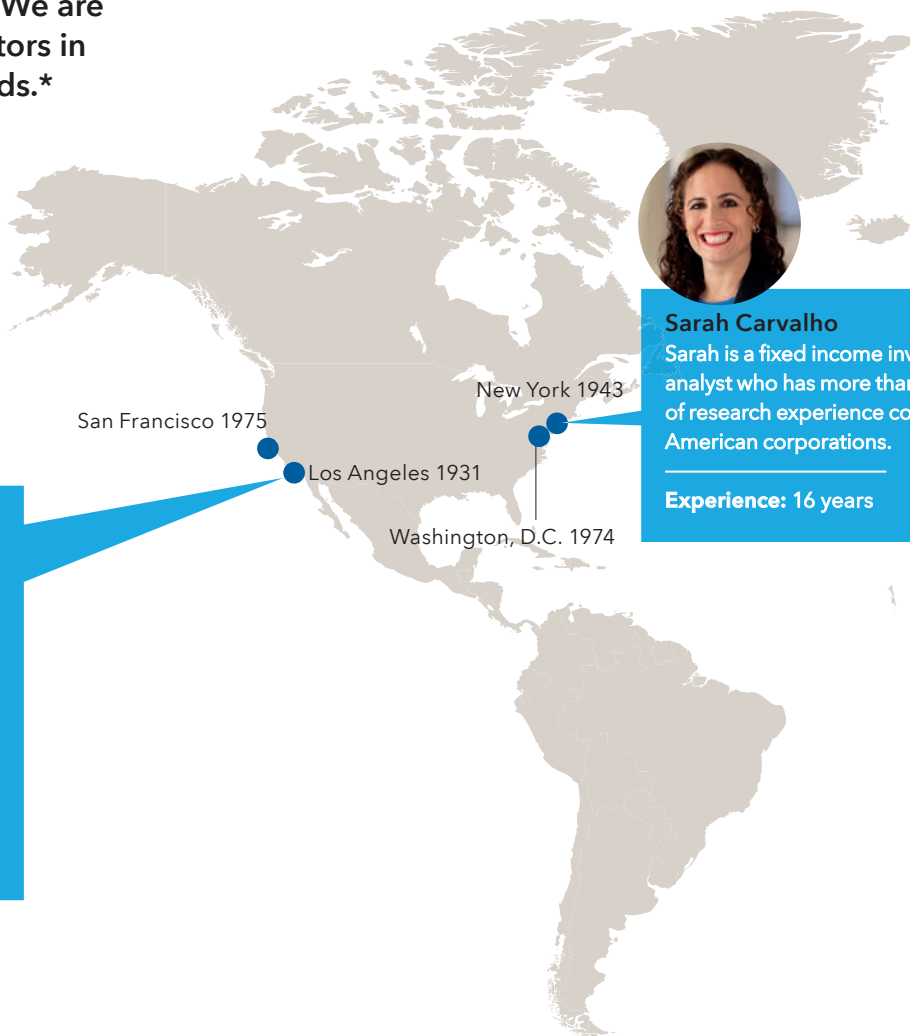

Experience: 14 years

Sarah Carvalho

Sarah is a fixed income investment analyst who has more than a decade of research experience covering Latin American corporations.

Experience: 16 years

Capital Group manages equity assets through three investment groups. These groups make investment and proxy voting decisions independently. Fixed income investment professionals provide fixed income research and investment management across the Capital organization; however, for securities with equity characteristics, they act solely on behalf of one of the three equity investment groups.

**Robert Burgess**

A bond analyst and research director, Robert has research responsibility for emerging market debt. Prior to Capital, Robert was a chief economist for emerging markets in Europe, the Middle East and Africa at a large European bank. He also has been an economist at the International Monetary Fund and HM Treasury.

Experience: 31 years

**Stephen Green**

An economist responsible for covering Asia, Stephen previously ran the Asia Programme at Chatham House, an international affairs think tank.

Experience: 18 years

**Chitra Gopal**

An equity analyst who covers the Asian technology sector, as well as European and U.S. semiconductor equipment. She holds a bachelor's degree in electrical and electronics engineering.

Experience: 21 years

ESG enhances our fundamental research

Material environmental, social, and governance (ESG) risks and opportunities are important considerations when striving to deliver superior long-term investment results.

†As of December 31, 2022.

We have provided superior long-term equity outcomes

For most investors, results are paramount. Consider the following facts:

American Funds equity-focused funds have beaten their Lipper peer indexes in 87% of 10-year periods and 97% of 20-year periods.*

In good times and bad, an 89-year track record of success in equity funds

Over the years, investors have looked to us to provide superior long-term outcomes. The reason becomes apparent when you look at our equity funds' results over 7,050 rolling monthly 10-year periods since our first fund began in 1934 (as shown below).

	Number of 10-year periods	When the total return was positive (annualized return greater than 0.00%)	When the value of an investment ...		
			At least doubled (annualized return 7.18% or greater)	At least tripled (annualized return 11.61% or greater)	At least quadrupled (annualized return 14.87% or greater)

Past results are not predictive of results in future periods.

Based on results calculated at net asset value with all distributions reinvested. Reflects applicable fees and expenses.

* Based on Class A share results at net asset value for rolling monthly 10- and 20-year periods starting with the first 10- or 20-year period after each mutual fund's inception through December 31, 2022. Periods covered are the shorter of the fund's lifetime or since the comparable Lipper index inception date (except Capital Income Builder and SMALLCAP World Fund, for which the Lipper average was used). Expenses differ for each share class, so results will vary. Funds with less than 10 years of results have not been included.

Our expenses are among the lowest

We are committed to providing exceptional services at a reasonable cost.

- We have some of the lowest management fees among mutual fund companies.
- We strive to keep management fees low so that operating expenses remain competitive.

Lower is better: American Funds average annual operating expenses (%)

The difference adds up

- Ongoing annual expenses have an impact on long-term results.
- As you can see, a 0.5 percentage point difference in expenses could add up to more than your initial investment over time.

The growth of hypothetical investments of \$100,000 over 30 years, assuming an annual growth rate of 8% before expenses and annual expense ratios of 1.25% and 0.75%, respectively.

The American Funds expense ratios are for Class A shares as of each fund's most recent prospectus available on December 31, 2022. When applicable, results reflect fee waivers and/or expense reimbursements, without which they would have been lower. Refer to capitalgroup.com for more information.

Due to their significant investments outside the U.S., American Funds Global Insight Fund, American Funds International Vantage Fund, Capital World Growth and Income Fund, EuroPacific Growth Fund, International Growth and Income Fund, The New Economy Fund, New Perspective Fund, New World Fund and SMALLCAP World Fund are included in the International/Global equity category.

†Source for industry averages: Lipper, based on comparable categories for front-end load funds (except money market funds, which are compared against no-load funds), excluding funds of funds, as of each fund's most recent fiscal year-end available December 31, 2022.

It's important to measure results over meaningful periods of time

"We keep one objective in front of us every single day, and that is to generate superior long-term investment results for our investors. We take this very seriously, and it drives every decision that we make."

– Justin Toner
Portfolio Manager

Figures shown are past results for Class A shares and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Prices and returns will vary, so investors may lose money. Investing for short periods makes losses more likely. Fund results reflect deduction of maximum sales charge (5.75% for equity, American Funds Retirement Income Portfolio Series, some Portfolio Series funds and target date funds, 3.75% for most bond funds and American Funds Tax-Aware Conservative Growth and Income Portfolio, 2.50% for shorter term bond funds, American Funds Preservation Portfolio and American Funds Tax-Exempt Preservation Portfolio). There is no sales charge for American Funds U.S. Government Money Market Fund. For current information and month-end results, visit capitalgroup.com.

For American Funds Global Insight Fund and American Funds International Vantage Fund, Class A shares were first offered on November 8, 2019. Class A share results prior to the date of first sale are hypothetical based on the results of the original share class of the fund without a sales charge, adjusted for typical estimated expenses. Refer to capitalgroup.com for more information on specific expense adjustments and the actual dates of first sale.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses. The expense ratios are as of each fund's prospectus available at the time of publication. When applicable, results reflect expense reimbursements, without which they would have been lower. Refer to capitalgroup.com for more information.

¹ Based on Class A shares at net asset value. Each fund's Lipper index is as follows: AMCAP Fund (Growth); The Growth Fund of America (Large-Cap Growth Fund); EuroPacific Growth Fund (International); The New Economy Fund, New Perspective Fund and Capital World Growth and Income Fund (Global); New World Fund (Emerging Markets); American Mutual Fund, Fundamental Investors, The Investment Company of America and Washington Mutual Investors Fund (Growth & Income); The Income Fund of America (Income [Mixed Equity]); American Balanced Fund (Balanced); American High-Income Trust (High Yield); The Bond Fund of America (Core Bond); Capital World Bond Fund (Global Income); Intermediate Bond Fund of America

You could lose money by investing in the money market fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

Money market fund								

The annualized seven-day SEC yield for American Funds U.S. Government Money Market Fund was 3.76% as of December 31, 2022. The yield more accurately reflects the fund's current earnings than do the fund's total returns.

Although the fund has 12b-1 plans for some share classes, it is currently suspending certain 12b-1 payments in this low interest rate environment. Should payments commence, the fund's investment results will be lower and expenses will be higher.

(Short-Intermediate Investment Grade Debt); Short-Term Bond Fund of America (Short U.S. Government Fund); U.S. Government Securities Fund (General U.S. Government); American High-Income Municipal Bond Fund (High Yield Municipal Debt); Limited Term Tax-Exempt Bond Fund of America (Short-Intermediate Municipal Debt); The Tax-Exempt Bond Fund of America (General & Insured Municipal Debt); and The Tax-Exempt Fund of California (California Municipal Debt). SMALLCAP World Fund results are based on comparisons with Lipper Global Small-/Mid-Cap Funds Average. Capital Income Builder results are based on comparisons with Lipper Global Equity Income Funds Average. Results for the Lipper indexes/averages do not reflect sales charges. Periods covered are the shorter of the fund's lifetime or since the comparable Lipper index inception date.

²Expense ratios are as of each fund's prospectus available at the time of publication.

³Capital Research and Management Company began managing the fund on this date.

⁴American Funds U.S. Government Money Market Fund will invest at least 99.5% of its assets in qualifying government securities.

Our portfolios are designed to help investors achieve their objectives

⁵ The Retirement Income Portfolio Series allocations may not achieve investment objectives and adequate income through retirement is not guaranteed. The portfolios' risks are directly related to the risks of the underlying funds. Payments consisting of return of capital will result in a decrease in an investor's fund share balance. Higher rates of withdrawal and withdrawals during declining markets may result in a more rapid decrease in an investor's fund share balance. Persistent return of capital could ultimately result in a zero account balance.

⁶ Although the target date portfolios are managed for investors on a projected retirement date time frame, the allocation strategy does not guarantee that investors' retirement goals will be met. Investment professionals manage the portfolio, moving it from a more growth-oriented strategy to a more income-oriented focus as the target date gets closer. Investment professionals continue to manage each fund for approximately 30 years after it reaches its target date. The target date is the year that corresponds roughly to the year in which an investor is assumed to retire and begin taking withdrawals.

⁷ Figures shown are for Class 529-A shares.

Our fixed income funds have helped provide resilience during market declines

Investors have used our fixed income funds to help diversify their portfolios and to pursue income and stability.

Although fixed income funds tend to lag during rising stock markets, our fixed income funds have provided a measure of downside resilience during stock market declines, as shown below.

Get the lowdown on our fixed income products, solutions and must-read insights.

"When it comes to keeping a portfolio on track, your choice of fixed income is critical. Our bond funds are designed with the four roles of fixed income in mind: diversification from equities, income, inflation protection and capital preservation. That means our bond funds can help a balanced portfolio achieve its objectives in both stable and volatile market environments."

– **Mike Gitlin**
Head of Fixed Income

Figures shown are past results for Class A shares and are not predictive of results in future periods. Returns at net asset value (NAV) do not reflect a sales charge. If a sales charge had been deducted, the results would have been lower. For current information and month-end results, visit capitalgroup.com.

Dates shown for market corrections are based on price declines of 10% or more (without dividends reinvested) in the unmanaged S&P 500 with 75% recovery between corrections. Returns of the funds and index are based on total returns. There have been periods when the funds have lagged the index, such as in rising equity markets. Investment results assume all distributions are reinvested and reflect applicable fees and expenses.

The Capital Advantage[®]

Since 1931, Capital Group, home of American Funds, has helped investors pursue long-term investment success. Our consistent approach – in combination with The Capital System[™] – has resulted in superior outcomes.

Aligned with investor success

We base our decisions on a long-term perspective, which we believe aligns our goals with the interests of our clients. Our portfolio managers average 28 years of investment industry experience, including 22 years at our company, reflecting a career commitment to our long-term approach.¹

The Capital System

The Capital System combines individual accountability with teamwork. Funds using The Capital System are divided into portions that are managed independently by investment professionals with diverse backgrounds, ages and investment approaches. An extensive global research effort is the backbone of our system.

American Funds' superior outcomes

Equity-focused funds have beaten their Lipper peer indexes in 87% of 10-year periods and 97% of 20-year periods.² Relative to their peers, our fixed income funds have helped investors achieve better diversification through attention to correlation between bonds and equities.³ Fund management fees have been among the lowest in the industry.⁴

¹Investment industry experience as of December 31, 2022.

²Based on Class A share results at net asset value for rolling monthly 10- and 20-year periods starting with the first 10- or 20-year period after each mutual fund's inception through December 31, 2022. Periods covered are the shorter of the fund's lifetime or since the comparable Lipper index inception date (except Capital Income Builder and SMALLCAP World Fund, for which the Lipper average was used). Expenses differ for each share class, so results will vary. Past results are not predictive of results in future periods.

³Based on Class A share results at net asset value as of December 31, 2022. Sixteen of the 18 fixed income American Funds that have been in existence for the three-year period showed a three-year correlation lower than their respective Morningstar peer group averages. S&P 500 Index was used as an equity market proxy. Correlation based on monthly total returns. Correlation is a statistical measure of how two securities move in relation to each other. A correlation ranges from -1 to 1. A positive correlation close to 1 implies that as one security moves, either up or down, the other security will move in "lockstep," in the same direction. A negative correlation close to -1 indicates that the securities have moved in the opposite direction.

⁴On average, our mutual fund management fees were in the lowest quintile 62% of the time, based on the 20-year period ended December 31, 2022, versus comparable Lipper categories, excluding funds of funds.

Investors should carefully consider investment objectives, risks, charges and expenses. This and other important information is contained in the fund prospectus, summary prospectus and CollegeAmerica Program Description, which can be obtained from a financial professional and should be read carefully before investing. CollegeAmerica is distributed by American Funds Distributors, Inc. Interests in CollegeAmerica are sold through unaffiliated intermediaries. American Funds Distributors, Inc., member FINRA.

If used after March 31, 2023, this brochure must be accompanied by a current American Funds quarterly statistical update. The use of American Funds investors does not necessarily constitute an endorsement of the funds by the individuals portrayed in the brochure.

Investing outside the United States involves risks, such as currency fluctuations, periods of illiquidity and price volatility, as more fully described in fund prospectuses. These risks may be heightened in connection with investments in developing countries. Small-company stocks entail additional risks, and they can fluctuate in price more than larger company stocks. Bond prices and a bond fund's share price will generally move in the opposite direction of interest rates. The return of principal for bond funds and funds with significant underlying bond holdings is not guaranteed. Fund shares are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings. Investments in mortgage-related securities involve additional risks, such as prepayment risk, as more fully described in the prospectus. Lower rated bonds are subject to greater fluctuations in value and risk of loss of income and principal than higher rated bonds. While not directly correlated to changes in interest rates, the values of inflation-linked bonds generally fluctuate in response to changes in real interest rates and may experience greater losses than other debt securities with similar durations. American Funds Strategic Bond Fund may engage in frequent and active trading of its portfolio securities, which may involve correspondingly greater transaction costs, adversely affecting the fund's results. The use of derivatives involves a variety of risks, which may be different from, or greater than, the risks associated with investing in traditional cash securities, such as stocks and bonds. For tax-exempt bond funds, income may be subject to state or local income taxes and/or the federal alternative minimum tax. The Tax-Exempt Bond Fund of America does not invest in bonds subject to the alternative minimum tax. Certain other income, as well as capital gain distributions, may be taxable. A state tax-exempt bond fund is more susceptible to factors adversely affecting issuers of its state's tax-exempt securities than a more widely diversified municipal bond fund.

Depending on your state of residence, there may be an in-state plan that provides state tax and other state benefits, such as financial aid, scholarship funds and protection from creditors, not available through CollegeAmerica. Before investing in any state's 529 plan, investors should consult a tax advisor.

CollegeAmerica is a nationwide plan sponsored by **Virginia529[™]**
