Capital Group California Core Municipal Fund
Capital Group California Short-Term Municipal Fund

Annual report for the year ended October 31, 2023

Research-driven approaches to seeking wealth preservation and income

On or around July 1, 2024, American Funds Distributors, Inc. will be renamed Capital Client Group, Inc.

Capital Group California Core Municipal Fund seeks to provide current income exempt from federal and California income taxes while preserving your investment.

Capital Group California Short-Term Municipal Fund seeks to preserve your investment and secondarily to provide current income exempt from federal and California income taxes.

Each fund is one of more than 40 offered by Capital Group, home of American Funds, one of the nation's largest mutual fund families. For over 90 years, Capital Group has invested with a long-term focus based on thorough research and attention to risk.

Fund results shown in this report are at net asset value. Results are for past periods and are not predictive of results for future periods. Current and future results may be lower or higher than those shown. Prices and returns will vary, so investors may lose money. Investing for short periods makes losses more likely.

Here are the total returns on a \$1,000 investment with all distributions reinvested for periods ended September 30, 2023 (the most recent calendar quarter-end), and the total annual fund operating expense ratios as of the prospectus dated January 1, 2024 (unaudited):

	Cumulative total returns	Average annual total returns			Gross expense ratios	Net expense ratios
	1 year	5 years	10 years	Lifetime*		
Capital Group California Core Municipal Fund	1.51%	0.86%	1.45%	1.84%	0.28%	0.28%
Capital Group California Short-Term Municipal Fund	1.28	0.55	0.69	0.90	0.32 [†]	0.30

*Since April 13, 2010.

[†]The investment adviser is currently reimbursing a portion of other expenses. This reimbursement will be in effect through at least January 1, 2025. The adviser may elect at its discretion to extend, modify or terminate the reimbursement at that time.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses. When applicable, results reflect fee waivers and/or reimbursements, without which they would have been lower. Refer to capitalgroupccsfunds.com and capitalgroup.com for American Funds for more information.

The return of principal for bond funds and for funds with significant underlying bond holdings is not guaranteed. Fund shares are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings. Income from municipal bonds may be subject to state or local income taxes. Certain other income, as well as capital gain distributions, may be taxable. Refer to the funds' prospectuses and the Risk Factors section of this report for more information on these and other risks associated with investing in the funds.

Investments are not FDIC-insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.

Fellow investors:

Bond markets rose in the 12 months ended October 31, 2023, despite a volatile second half. Though rising rates weighed on the value of existing securities, that was more than offset by higher yields on newly issued securities. Going forward, the outlook for fixed income looks extremely promising as higher rates could translate to greater payouts over time.

Both Capital Group California Core Municipal Fund and Capital Group California Short-Term Municipal Fund offered tax-advantaged income for the period. Portfolio managers sought to take advantage of the changing rate environment by directing cash into securities paying higher yields when appropriate.

Markets and economy

The factors that hurt bonds in 2022 continued to pose obstacles in 2023, including elevated inflation and aggressive Federal Reserve rate hikes. The effects of falling fixed income valuations were vividly illustrated in March when several U.S. regional banks collapsed amid liquidity crunches.

However, clear reasons for optimism emerged as the Fed appeared to make considerable headway in taming inflation. That progress allowed the central bank to pause further hikes in its September and October meetings. Barring a resurgence in consumer prices, there is a growing belief that the central bank may be finished with rate hikes this cycle.

On the economic front, consumer spending and labor markets continued to be bright spots, raising hopes that a widely expected recession might be avoided. For

the year ended October 31, inflation, as measured by the Consumer Price Index, slowed by more than 4 percentage points, while unemployment hovered below 4% for the same period.

Perhaps counterintuitively, the second half of the funds' year proved more challenging for fixed income despite an improved economic outlook. Earlier, many investors had positioned themselves for a recession, eschewing shorter term securities in favor of longer term securities such as 10-year Treasuries. Amid rising optimism and attractive cash yields, many investors opted to move to ultra-short-term options until the economic picture became clearer. As a result, both demand and prices for bonds fell.

Capital Group California Core Municipal Fund and Capital Group California Short-Term Municipal Fund

Capital Group California Core Municipal Fund advanced 0.92% for the year, compared to its primary index, the Bloomberg California Short-Intermediate Municipal Index, which grew 2.06%. Capital Group California Short-Term Municipal Fund gained 1.13%, while its primary index, the Bloomberg California Short Municipal Index, rose 2.04%. Index definitions can be found on page 3.

Earlier in the year, the funds were positioned in anticipation of plateauing or falling interest rates. However, the Fed did not pause interest rate increases until the third quarter, weighing on results.

Market outlook

Though the U.S. economy has softened on some axes in recent months, the

Past results are not predictive of results in future periods.

consensus view of Capital Group economists is that a soft landing is an increasingly likely scenario. Inflation has trended down for more than a year and is expected to continue doing so in 2024. Wages appear set to grow in real terms, a rarity during a recession, and a favorable sign for U.S. consumers. Additionally, many industries experienced recession-like downturns in recent years, suggesting that some of the weaknesses in the economy may have already been purged.

Capital Group economists do not expect the Fed to significantly trim interest rates in the coming year. Though inflation has fallen, it remains elevated, and there are several potential sources of pricing pressure – such as higher wages – that could undo the central bank’s work if it acts too aggressively.

Our portfolio managers believe that high yields on cash accounts could provide a tailwind for the bond market as economic

conditions stabilize. Historically, cash has not been suitable for long-term growth; as the economic picture becomes clearer in coming months, investors are likely going to return to stocks and bonds. That influx of cash could boost bond prices.

As always, we continue to focus on capital preservation as a core part of our investment process, particularly during periods of unusually high uncertainty. Thank you for your trust and continued investment.

Sincerely,

Mark Marinella
President

December 14, 2023

The return of principal for bond funds and for funds with significant underlying bond holdings is not guaranteed. Fund shares are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings. Income from municipal bonds may be subject to state or local income taxes. Certain other income, as well as capital gain distributions, may be taxable. Refer to the funds’ prospectuses and the Risk Factors section of this report for more information on these and other risks associated with investing in the funds.

Funds’ 30-day yields and 12-month distribution rates

Below is a summary of each fund’s 30-day yield and 12-month distribution rate as of October 31, 2023. Each fund’s 30-day yield is calculated in accordance with the U.S. Securities and Exchange Commission (SEC) formula. The SEC yield reflects the rate at which each fund is earning income on its current portfolio of securities while the distribution rate reflects the funds’ past dividends paid to shareholders. Accordingly, the funds’ SEC yields and distribution rates may differ.

	SEC 30-day yield		12-month distribution rate
	Net	Gross	
Capital Group California Core Municipal Fund	3.40%	3.40%	1.99%
Capital Group California Short-Term Municipal Fund	3.38	3.37	1.77

¹Since April 13, 2010.

²Bloomberg California Short-Intermediate Municipal Index is a market value-weighted index that includes only investment-grade tax-exempt bonds that are issued from California with maturities of one to 10 years. The index is unmanaged, and its results include reinvested distributions but do not reflect the effect of commissions, account fees, expenses or U.S. federal income taxes. Investors cannot invest directly in an index. There have been periods when the fund has lagged the index. Source: Bloomberg Index Services Ltd.

³Lipper California Short-Intermediate Municipal Debt Funds Average is composed of funds that limit their assets to those securities that provide income that is exempt from taxation in California, with dollar-weighted average maturities of one to five years. The results of the underlying funds in the average include reinvestment of dividends and capital gain distributions, as well as brokerage commissions paid by the funds for portfolio transactions and other fund expenses, but do not reflect the effect of sales charges, account fees or U.S. federal income taxes. There have been periods when the fund has lagged the average. Source: Refinitiv Lipper.

⁴Bloomberg California Short Municipal Index is a market value-weighted index that includes only investment-grade tax-exempt bonds that are issued from California with maturities of one to five years. The index is unmanaged, and its results include reinvested distributions but do not reflect the effect of commissions, account fees, expenses or U.S. federal income taxes. Investors cannot invest directly in an index. There have been periods when the fund has lagged the index. Source: Bloomberg Index Services Ltd.

⁵Lipper Short Municipal Debt Funds Average is composed of funds that invest in municipal debt issues with dollar-weighted average maturities of less than three years. The results of the underlying funds in the average include reinvestment of dividends and capital gain distributions, as well as brokerage commissions paid by the funds for portfolio transactions and other fund expenses, but do not reflect the effect of sales charges, account fees or U.S. federal income taxes. There have been periods when the fund has lagged the average. Source: Refinitiv Lipper.

Lipper averages reflect the current composition of all eligible mutual funds (all share classes) within a given category. Lipper categories are dynamic, and averages may have few funds, especially over longer periods.

*Bond ratings, which typically range from AAA/Aaa (highest) to D (lowest), are assigned by credit rating agencies such as Standard & Poor's, Moody's and/or Fitch as an indication of an issuer's creditworthiness. In assigning a credit rating to a security, the fund looks specifically to the ratings assigned to the issuer of the security by Standard & Poor's, Moody's and/or Fitch. If agency ratings differ, the security will be considered to have received the highest of those ratings, consistent with the fund's investment policies. The ratings are not covered by the Report of Independent Registered Public Accounting Firm.

¹Coupon rate may change periodically. Reference rate and spread are as of the most recent information available. Some coupon rates are determined by the issuer or agent based on current market conditions; therefore, the reference rate and spread are not available. For short-term securities, the date of the next scheduled coupon rate change is considered to be the maturity date.

²Step bond; coupon rate may change at a later date.

³Acquired in a transaction exempt from registration under Rule 144A or, for commercial paper, Section 4(a)(2) of the Securities Act of 1933. May be resold in the U.S. in transactions exempt from registration, normally to qualified institutional buyers. The total value of all such securities was \$10,127,000, which represented 1.57% of the net assets of the fund.

⁴For short-term securities, the mandatory put date is considered to be the maturity date.

Investment portfolio October 31, 2023

Portfolio quality summary*

Percent of net assets

*Bond ratings, which typically range from AAA/Aaa (highest) to D (lowest), are assigned by credit rating agencies such as Standard & Poor's, Moody's and/or Fitch as an indication of an issuer's creditworthiness. In assigning a credit rating to a security, the fund looks specifically to the ratings assigned to the issuer of the security by Standard & Poor's, Moody's and/or Fitch. If agency ratings differ, the security will be considered to have received the highest of those ratings, consistent with the fund's investment policies. The ratings are not covered by the Report of Independent Registered Public Accounting Firm.

Notes to financial statements

1. Organization

Capital Group Private Client Services Funds (the “series”) is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end, diversified management investment company. The series consists of two funds: Capital Group California Core Municipal Fund and Capital Group California Short-Term Municipal Fund (each a “fund,” collectively the “funds”). The assets of each fund are segregated, with each fund accounted for separately.

Each fund’s investment objectives are as follows:

Capital Group California Core Municipal Fund – Seeks to provide current income exempt from federal and California income taxes and to preserve capital.

Capital Group California Short-Term Municipal Fund – Seeks to preserve capital and secondarily to provide current income exempt from federal and California income taxes.

2. Significant accounting policies

Each fund is an investment company that applies the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board. Each fund’s financial statements have been prepared to comply with U.S. generally accepted accounting principles (“U.S. GAAP”). These principles require the funds’ investment adviser to make estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from those estimates. Subsequent events, if any, have been evaluated through the date of issuance in the preparation of the financial statements. The funds follow the significant accounting policies described in this section, as well as the valuation policies described in the next section on valuation.

Security transactions and related investment income – Security transactions are recorded by the funds as of the date the trades are executed with brokers. Realized gains and losses from security transactions are determined based on the specific identified cost of the securities. In the event a security is purchased with a delayed payment date, the funds will segregate liquid assets sufficient to meet their payment obligations. Dividend income is recognized on the ex-dividend date and interest income is recognized on an accrual basis. Market discounts, premiums and original issue discounts on fixed-income securities are amortized daily over the expected life of the security.

Distributions paid to shareholders – Income dividends and capital gain distributions are recorded on the ex-dividend date.

3. Valuation

Capital Research and Management Company (“CRMC”), the funds’ investment adviser, values each fund’s investments at fair value as defined by accounting principles generally accepted in the United State of America. The net asset value per share of each fund is calculated once daily as of the close of regular trading on the New York Stock Exchange, normally 4 p.m. New York time, each day the New York Stock Exchange is open.

Methods and inputs – The funds’ investment adviser uses the following methods and inputs to establish the fair value of each fund’s assets and liabilities. Use of particular methods and inputs may vary over time based on availability and relevance as market and economic conditions evolve.

Fixed-income securities, including short-term securities, are generally valued at evaluated prices obtained from third-party pricing vendors. Vendors value such securities based on one or more of the inputs described in the following table. The table provides examples of inputs that are commonly relevant for valuing particular classes of fixed-income securities in which the funds are authorized to invest. However, these classifications are not exclusive, and any of the inputs may be used to value any other class of fixed-income security.

Fixed-income class	Examples of standard inputs
All	Benchmark yields, transactions, bids, offers, quotations from dealers and trading systems, new issues, spreads and other relationships observed in the markets among comparable securities; and proprietary pricing models such as yield measures calculated using factors such as cash flows, financial or collateral performance and other reference data (collectively referred to as "standard inputs")
Municipal securities	Standard inputs and, for certain distressed securities, cash flows or liquidation values using a net present value calculation based on inputs that include, but are not limited to, financial statements and debt contracts

Exchange-traded futures are generally valued at the official settlement price of the exchange or market on which such instruments are traded, as of the close of business on the day the futures are being valued.

Securities and other assets for which representative market quotations are not readily available or are considered unreliable by the funds' investment adviser are fair valued as determined in good faith under fair valuation guidelines adopted by the funds' investment adviser and approved by the board of trustees as further described. The investment adviser follows fair valuation guidelines, consistent with U.S. Securities and Exchange Commission rules and guidance, to consider relevant principles and factors when making fair value determinations. The investment adviser considers relevant indications of value that are reasonably and timely available to it in determining the fair value to be assigned to a particular security, such as the type and cost of the security, contractual or legal restrictions on resale of the security, relevant financial or business developments of the issuer, actively traded similar or related securities, dealer or broker quotes, conversion or exchange rights on the security, related corporate actions, significant events occurring after the close of trading in the security, and changes in overall market conditions. In addition, the closing prices of equity securities that trade in markets outside U.S. time zones may be adjusted to reflect significant events that occur after the close of local trading but before the net asset value of each of the funds is determined. Fair valuations of investments that are not actively trading involve judgment and may differ materially from valuations that would have been used had greater market activity occurred.

Processes and structure – The funds' board of trustees has designated the fund's investment adviser to make fair value determinations, subject to board oversight. The investment adviser has established a Joint Fair Valuation Committee (the "Committee") to administer, implement and oversee the fair valuation process and to make fair value decisions. The Committee regularly reviews its own fair value decisions, as well as decisions made under its standing instructions to the investment adviser's valuation team. The Committee reviews changes in fair value measurements from period to period, pricing vendor information and market data, and may, as deemed appropriate, update the fair valuation guidelines to better reflect the results of back testing and address new or evolving issues. Pricing decisions, processes and controls over security valuation are also subject to additional internal reviews facilitated by the investment adviser's global risk management group. The Committee reports changes to the fair valuation guidelines to the board of trustees. The funds' board and audit committee also regularly review reports that describe fair value determinations and methods.

Classifications – The funds’ investment adviser classifies each fund’s assets and liabilities into three levels based on the inputs used to value the assets or liabilities. Level 1 values are based on quoted prices in active markets for identical securities. Level 2 values are based on significant observable market inputs, such as quoted prices for similar securities and quoted prices in inactive markets. Certain securities trading outside the U.S. may transfer between Level 1 and Level 2 due to valuation adjustments resulting from significant market movements following the close of local trading. Level 3 values are based on significant unobservable inputs that reflect the investment adviser’s determination of assumptions that market participants might reasonably use in valuing the securities. The valuation levels are not necessarily an indication of the risk or liquidity associated with the underlying investment. For example, U.S. government securities are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market. The funds’ valuation levels as of October 31, 2023, are as follows (dollars in thousands):

Capital Group California Core Municipal Fund

	Investment securities			Total
	Level 1	Level 2	Level 3	
Assets:

4. Risk factors

Investing in the funds may involve certain risks including, but not limited to, those described below.

Market conditions – The prices of, and the income generated by, the securities held by the fund may decline – sometimes rapidly or unpredictably – due to various factors, including events or conditions affecting the general economy or particular industries or companies; overall market changes; local, regional or global political, social or economic instability; governmental, governmental agency or central bank responses to economic conditions; changes in inflation rates; and currency exchange rate, interest rate and commodity price fluctuations.

Economies and financial markets throughout the world are highly interconnected. Economic, financial or political events, trading and tariff arrangements, wars, terrorism, cybersecurity events, natural disasters, public health emergencies (such as the spread of infectious disease), bank failures and other circumstances in one country or region, including actions taken by governmental or quasi-governmental authorities in response to any of the foregoing, could have impacts on global economies or markets. As a result, whether or not the fund invests in securities of issuers located in or with significant exposure to the countries affected, the value and liquidity of the fund's investments may be negatively affected by developments in other countries and regions.

Issuer risks – The prices of, and the income generated by, securities held by the fund may decline in response to various factors directly related to the issuers of such securities, including reduced demand for an issuer's goods or services, poor management performance, major litigation, investigations or other controversies related to the issuer, changes in the issuer's financial condition or credit rating, changes in government regulations affecting the issuer or its competitive environment and strategic initiatives such as mergers, acquisitions or dispositions and the market response to any such initiatives. An individual security may also be affected by factors relating to the industry or sector of the issuer or the securities markets as a whole, and conversely an industry or sector or the securities markets may be affected by a change in financial condition or other event affecting a single issuer.

Investing in debt instruments – The prices of, and the income generated by, bonds and other debt securities held by the fund may be affected by factors such as the interest rates, maturities and credit quality of these securities.

Rising interest rates will generally cause the prices of bonds and other debt securities to fall. Also, when interest rates rise, issuers of debt securities which may be prepaid at any time, such as mortgage- or other asset-backed securities, are less likely to refinance existing debt securities, causing the average life of such securities to extend. A general change in interest rates may cause investors to sell debt securities on a large scale, which could also adversely affect the price and liquidity of debt securities and could also result in increased redemptions from the fund. Falling interest rates may cause an issuer to redeem, call or refinance a debt security before its stated maturity, which may result in the fund having to reinvest the proceeds in lower yielding securities. Longer maturity debt securities generally have greater sensitivity to changes in interest rates and may be subject to greater price fluctuations than shorter maturity debt securities.

Bonds and other debt securities are also subject to credit risk, which is the possibility that the credit strength of an issuer or guarantor will weaken or be perceived to be weaker, and/or an issuer of a debt security will fail to make timely payments of principal or interest and the security will go into default. Changes in actual or perceived creditworthiness may occur quickly. A downgrade or default affecting any of the fund's securities could cause the value of the fund's shares to decrease. Credit risk is gauged, in part, by the credit ratings of the debt securities in which the fund invests. However, ratings are only the opinions of the rating agencies issuing them and are not guarantees as to credit quality or an evaluation of market risk. The fund's investment adviser relies on its own credit analysts to research issuers and issues in assessing credit and default risks.

Credit and liquidity support – Changes in the credit quality of banks and financial institutions providing credit and liquidity support features with respect to securities held by the fund could cause the values of these securities to decline.

Investing in lower rated debt instruments – Lower rated bonds and other lower rated debt securities generally have higher rates of interest and involve greater risk of default or price declines due to changes in the issuer's creditworthiness than those of higher quality debt securities. The market prices of these securities may fluctuate more than the prices of higher quality debt securities and may decline significantly in periods of general economic difficulty.

Liquidity risk – Certain fund holdings may be or may become difficult or impossible to sell, particularly during times of market turmoil. Liquidity may be impacted by the lack of an active market for a holding, legal or contractual restrictions on resale, or the reduced number and capacity of market participants to make a market in such holding. Market prices for less liquid or illiquid holdings may be volatile or difficult to determine, and reduced liquidity may have an adverse impact on the market price of such holdings. Additionally, the sale of less liquid or illiquid holdings may involve substantial delays (including delays in settlement) and additional costs and the fund may be unable to sell such holdings when necessary to meet its liquidity needs or to try to limit losses, or may be forced to sell at a loss.

Investing in similar municipal bonds – Investing significantly in municipal obligations of multiple issuers in the same state or backed by revenues of similar types of projects or industries may make the fund more susceptible to certain economic, political or regulatory occurrences. As a result, the fund has greater risk of volatility, and greater risk of loss, from these investments.

Investing in municipal bonds of issuers within the state of California – Because the funds invest primarily in securities of issuers within the state of California, the funds are more susceptible to factors adversely affecting issuers of California securities than a comparable municipal bond mutual fund that does not concentrate its investments in a single state. For example, in the past, California voters have passed amendments to the state’s constitution and other measures that limit the taxing and spending authority of California governmental entities, and future voter initiatives may adversely affect California municipal bonds.

Management – The investment adviser to the fund actively manages the fund’s investments. Consequently, the fund is subject to the risk that the methods and analyses, including models, tools and data, employed by the investment adviser in this process may be flawed or incorrect and may not produce the desired results. This could cause the fund to lose value or its investment results to lag relevant benchmarks or other funds with similar objectives.

5. Certain investment techniques

Futures contracts – Each fund has entered into futures contracts, which provide for the future sale by one party and purchase by another party of a specified amount of a specific financial instrument for a specified price, date, time and place designated at the time the contract is made. Futures contracts are used to strategically manage portfolio volatility and downside equity risk.

Upon entering into futures contracts, and to maintain the fund’s open positions in futures contracts, the fund is required to deposit with a futures broker, known as a futures commission merchant (“FCM”), in a segregated account in the name of the FCM an amount of cash, U.S. government securities or other liquid securities, known as initial margin. The margin required for a particular futures contract is set by the exchange on which the contract is traded to serve as collateral, and may be significantly modified from time to time by the exchange during the term of the contract.

On a daily basis, each fund pays or receives variation margin based on the increase or decrease in the value of the futures contracts and records variation margin on futures contracts in each fund’s statement of assets and liabilities. In addition, each fund segregates liquid assets equivalent to the fund’s outstanding obligations under the contract in excess of the initial margin and variation margin, if any. Futures contracts may involve a risk of loss in excess of the variation margin shown on each fund’s statement of assets and liabilities. Each fund records realized gains or losses at the time the futures contract is closed or expires. Net realized gains or losses and net unrealized appreciation or depreciation from futures contracts are recorded in each fund’s statement of operations.

The following table presents the average month-end notional amounts of futures contracts while held for each fund (dollars in thousands):

	Futures contracts
Capital Group California Core Municipal Fund	\$137,652
Capital Group California Short-Term Municipal Fund	20,373

The following tables identify the location and fair value amounts on the funds' statements of assets and liabilities and/or the effect on the funds' statements of operations resulting from the funds' use of futures contracts as of, or for the year ended, October 31, 2023 (dollars in thousands):

Capital Group California Core Municipal Fund

Contracts	Risk type	Assets		Liabilities	
		Location on statement of assets and liabilities	Value	Location on statement of assets and liabilities	Value
Futures	Interest	Unrealized appreciation*	\$894	Unrealized depreciation*	\$762

Contracts	Risk type	Net realized loss		Net unrealized depreciation	
		Location on statement of operations	Value	Location on statement of operations	Value
Futures	Interest	Net realized loss on futures contracts	\$(1,881)	Net unrealized depreciation on futures contracts	\$(865)

Capital Group California Short-Term Municipal Fund

Contracts	Risk type	Assets		Liabilities	
		Location on statement of assets and liabilities	Value	Location on statement of assets and liabilities	Value
Futures	Interest	Unrealized appreciation*	\$35	Unrealized depreciation*	\$58

Contracts	Risk type	Net realized loss		Net unrealized depreciation	
		Location on statement of operations	Value	Location on statement of operations	Value
Futures	Interest	Net realized loss on futures contracts	\$(336)	Net unrealized depreciation on futures contracts	\$(64)

*Includes cumulative appreciation/depreciation on futures contracts as reported in the applicable table following each fund's investment portfolio. Only current day's variation margin is reported within each fund's statement of assets and liabilities.

Collateral – Each fund either receives or pledges highly liquid assets, such as cash or U.S. government securities, as collateral due to its use of futures contracts. For futures contracts, the program calls for the fund to pledge collateral for initial and variation margin by contract. The purpose of the collateral is to cover potential losses that could occur in the event that either party cannot meet its contractual obligations. Non-cash collateral pledged by the fund, if any, is disclosed in the fund's investment portfolio, and cash collateral pledged by the fund, if any, is held in a segregated account with the fund's custodian, which is reflected as pledged cash collateral in each fund's statement of assets and liabilities.

6. Taxation and distributions

Federal income taxation – Each fund complies with the requirements under Subchapter M of the Internal Revenue Code applicable to regulated investment companies and intends to distribute substantially all of its net income and net capital gains each year. The funds are not subject to income taxes to the extent taxable income and net capital gains are distributed. Therefore, no federal income tax provision is required.

As of and during the year ended October 31, 2023, neither of the funds had a liability for any unrecognized tax benefits. Each fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in their respective statements of operations. During the period, neither of the funds incurred any significant interest or penalties.

Each fund's tax returns are generally not subject to examination by federal, state and, if applicable, non-U.S. tax authorities after the expiration of each jurisdiction's statute of limitations, which is typically three years after the date of filing but can be extended in certain jurisdictions.

Distributions – Distributions determined on a tax basis may differ from net investment income and net realized gains for financial reporting purposes. These differences are due primarily to different treatment for items such as short-term capital gains and losses; amortization of premiums and discounts; income on certain investments; net capital losses and cost of investments sold. The fiscal year in which amounts are distributed may differ from the year in which the net investment income and net realized gains are recorded by the funds for financial reporting purposes. The funds may also designate a portion of the amount paid to redeeming shareholders as a distribution for tax purposes.

Additional tax basis disclosures for each fund as of October 31, 2023, were as follows (dollars in thousands):

	Capital Group California Core Municipal Fund	Capital Group California Short-Term Municipal Fund
Undistributed tax-exempt income	152	–
Capital loss carryforward*	(6,753)	(2,117)
Gross unrealized appreciation on investments	849	118
Gross unrealized depreciation on investments	(39,558)	(4,305)
Net unrealized depreciation on investments	(38,709)	(4,187)
Cost of investments	683,870	109,105
Reclassification from total accumulated loss to capital paid in on shares of beneficial interest	58	4

*Each fund's capital loss carryforward will be used to offset any capital gains realized by the fund in future years. Funds with a capital loss carryforward will not make distributions from capital gains while a capital loss carryforward remains.

Distributions paid by each fund were characterized for tax purposes as follows (dollars in thousands):

	Year ended October 31, 2023			
	Tax-exempt income	Ordinary income	Long-term capital gains	Total distributions paid
Capital Group California Core Municipal Fund	\$12,269	\$–	\$–	\$12,269
Capital Group California Short-Term Municipal Fund	2,061	–	–	2,061
	Year ended October 31, 2022			
	Tax-exempt income	Ordinary income	Long-term capital gains	Total distributions paid
Capital Group California Core Municipal Fund	\$8,712	\$1,103	\$2,589	\$12,404
Capital Group California Short-Term Municipal Fund	1,110	113	406	1,629

7. Fees and transactions with related parties

CRMC, the funds' investment adviser, is the parent company of American Funds Service Company® ("AFS"), the funds' transfer agent. CRMC and AFS are considered related parties to each fund.

Investment advisory services – Each fund has an investment advisory and service agreement with CRMC that provides for monthly fees accrued daily. The fee for Capital Group California Core Municipal Fund and Capital Group California Short-Term Municipal Fund is 0.25% of the daily net assets of each fund.

Transfer agent services – Each fund has a shareholder services agreement with AFS under which each fund compensates AFS for providing transfer agent services. These services include recordkeeping, shareholder communications and transaction processing. In addition, each fund reimburses AFS for amounts paid to third parties for performing transfer agent services on behalf of fund shareholders.

Miscellaneous fee reimbursements – CRMC has agreed to reimburse a portion of miscellaneous fees and expenses for Capital Group California Short-Term Municipal Fund to limit the fund’s total annual operating expenses to 0.30% (as a percentage of daily net assets). Miscellaneous expenses exclude investment advisory services fees. These reimbursements may be adjusted or discontinued by CRMC, subject to any restrictions in the series’ prospectus. For the year ended October 31, 2023, total fees and expenses reimbursed by CRMC were \$27,000 for Capital Group California Short-Term Municipal Fund. CRMC will not recoup all or a portion of these reimbursements. Fees and expenses in each fund’s statement of operations are presented gross of any reimbursements from CRMC.

Affiliated officers and trustees – Officers and certain trustees of the series are or may be considered to be affiliated with CRMC. No affiliated officers or trustees received any compensation directly from the series.

Security transactions with related funds – The funds may purchase from, or sell securities to, other CRMC-managed funds (or accounts managed by certain affiliates of CRMC) under procedures adopted by the funds’ board of trustees. The funds involved in such transactions are considered related by virtue of having a common investment adviser (or affiliated investment advisers), common trustees and/or common officers. When such transactions occur, each transaction is executed at the current market price of the security and no brokerage commissions or fees are paid in accordance with Rule 17a-7 of the 1940 Act.

The following table presents purchase and sales transactions, if any, between each fund and related funds and the net realized losses from such sales as of October 31, 2023 (dollars in thousands):

Fund	Purchases	Sales	Net realized loss
Capital Group California Core Municipal Fund	\$23,164	\$1,631	\$(22)
Capital Group California Short-Term Municipal Fund	7,894	–	–

Interfund lending – Pursuant to an exemptive order issued by the SEC, the funds, along with other CRMC-managed funds (or funds managed by certain affiliates of CRMC), may participate in an interfund lending program. The program provides an alternate credit facility that permits the funds to lend or borrow cash for temporary purposes directly to or from one another, subject to the conditions of the exemptive order. The funds did not lend or borrow cash through the interfund lending program at any time during the year ended October 31, 2023.

8. Indemnifications

The series’ organizational documents provide board members and officers with indemnification against certain liabilities or expenses in connection with the performance of their duties to the series. In the normal course of business, the series may also enter into contracts that provide general indemnifications. Each fund’s maximum exposure under these arrangements is unknown since it is dependent on future claims that may be made against the series. The risk of material loss from such claims is considered remote. Insurance policies are also available to the series’ board members and officers.

9. Capital share transactions

Capital share transactions in each fund were as follows (dollars and shares in thousands):

Fund	Sales		Reinvestment of distributions		Repurchases		Net increase (decrease)	
	Amount	Shares	Amount	Shares	Amount	Shares	Amount	Shares
Year ended October 31, 2023								
Capital Group								
California Core Municipal Fund	\$238,450	23,637	\$12,269	1,216	\$(183,109)	(18,183)	\$ 67,610	6,670
Capital Group California								
Short-Term Municipal Fund	55,861	5,658	2,061	209	(73,559)	(7,449)	(15,637)	(1,582)
Year ended October 31, 2022								
Capital Group								
California Core Municipal Fund	\$139,205	13,564	\$12,404	1,193	\$(177,310)	(17,395)	\$(25,701)	(2,638)
Capital Group California								
Short-Term Municipal Fund	52,891	5,338	1,629	162	(103,797)	(10,348)	(49,277)	(4,848)

10. Investment transactions

The funds made purchases and sales of investment securities during the year ended October 31, 2023, as follows (dollars in thousands):

	Capital Group California Core Municipal Fund	Capital Group California Short-Term Municipal Fund
Purchases of investment securities*	\$252,746	\$55,447
Sales of investment securities*	138,898	46,509

*Excludes short-term securities and U.S. government obligations, if any.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Capital Group Private Client Services Funds and Shareholders of Capital Group California Core Municipal Fund and Capital Group California Short- Term Municipal Fund

Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the investment portfolios, of Capital Group California Core Municipal Fund and Capital Group California Short- Term Municipal Fund (constituting Capital Group Private Client Services Funds, hereafter collectively referred to as the "Funds") as of October 31, 2023, the related statements of operations for the year ended October 31, 2023, the statements of changes in net assets for each of the two years in the period ended October 31, 2023, including the related notes, and the financial highlights for each of the five years in the period ended October 31, 2023 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of October 31, 2023, the results of each of their operations for the year then ended, the changes in each of their net assets for each of the two years in the period ended October 31, 2023 and each of the financial highlights for each of the five years in the period ended October 31, 2023 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of October 31, 2023 by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

/s/ PricewaterhouseCoopers LLP

Los Angeles, California
December 14, 2023

We have served as the auditor of one or more investment companies in The Capital Group Companies Investment Company Complex since 1934.

As a shareholder of the funds, you incur ongoing costs, including management fees and other expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the funds so you can compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire six-month period (May 1, 2023, through October 31, 2023).

Actual expenses:

The first line of each fund in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading titled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes:

The second line of each fund in the table below provides information about hypothetical account values and hypothetical expenses based on the actual expense ratio for the share class and an assumed rate of return of 5.00% per year before expenses, which is not the actual return of the share class. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the fund and other funds. To do so, compare this 5.00% hypothetical example with the 5.00% hypothetical examples that appear in the shareholder reports of the other funds.

Notes:

Shareholders of the funds may be subject to an additional fee charged by CRMC's Capital Group Private Client Services division for the ongoing services provided to the shareholder. You can estimate the impact of these fees by adding the amount of the fees to the total estimated expenses you paid on your account during the period as calculated above. In addition, your ending account value would be lower by the amount of these fees. Note that the expenses shown in the table are meant to highlight your ongoing costs only. The second line of each fund in the table below is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds.

	Beginning account value 5/1/2023	Ending account value 10/31/2023	Expenses paid during period*	Annualized expense ratio
Capital Group California Core Municipal Fund				
Actual return	\$1,000.00	\$ 972.00	\$1.34	.27%
Assumed 5% return	1,000.00	1,023.84	1.38	.27
Capital Group California Short-Term Municipal Fund				
Actual return	\$1,000.00	\$ 987.17	\$1.70	.34%
Assumed 5% return	1,000.00	1,023.49	1.73	.34

*The "expenses paid during period" are equal to the "annualized expense ratio," multiplied by the average account value over the period, multiplied by the number of days in the period, and divided by 365 (to reflect the one-half year period).

Tax information

unaudited

We are required to advise you of the federal tax status of certain distributions received by shareholders during the fiscal year. The funds hereby designate the following amounts for the funds' fiscal year ended October 31, 2023:

	Capital Group California Core Municipal Fund	Capital Group California Short-Term Municipal Fund
Exempt interest dividends	100%	100%

Individual shareholders should refer to their Form 1099 or other tax information, which will be mailed in January 2024, to determine the *calendar year* amounts to be included on their 2023 tax returns. Shareholders should consult their tax advisors.
